

Please do not let the big Bell "Wolves" own the chicken coop which they already are allowed to dominate by the FCC. Competition is an absolute neccesity. If the FCC lifts the dominant classification from the Local Exchange Carriers (Bells), it will limit competition to a duopoly consisting of a bell and a cable company. Competition in the American Telecom marketplace will be effectively eliminated. A free market requires competition to keep companies honest and "accountable" to each customer, like me. ISPs and CLECs will die, consumers will be deprived of choice and the FCC will be to blame for it. Chairman Powell: Please, please do not allow BIG BUSINESS to pressure and influence this change and take away my option to choose who provides my service.
